

Resources for Seniors Building Project

The Community Service Committee needs your sweat equity! Join us as we once again team up with Resources for Seniors to build ramps for senior citizens in need of wheelchair access to their homes in Wake County.

Resources for Seniors has a long list of homes awaiting ramps and we need your help!

Resources for Seniors will provide all materials and a general contractor will be on-site to lead the project. We will provide the labor. Volunteers will meet at the home at 8:00am and construct one ramp. The project will take approximately 4 hours to complete.

By giving two to four hours of your time, you will greatly improve the quality of life for one Wake County family. This is not strenuous work, but does entail physical labor. We need at least 10 volunteers to build one ramp, but can accept up to 20 volunteers in order to assist at two different sites during the same time frame.

If you would like to join us for this charitable event, please contact RRAR Membership Services Associate Priscilla Erwin at Priscillae@rrar.com or at 919-654-5400, ext. 216.
